Experience

Adatafy / Novaspect

Software Engineer II - Solutions Architecture & AI-Enabled Digital Transformation

Chicago, IL

June 2022 – Present

- Delivered **8–9 enterprise digital transformation and MES implementations** across pharma, food, utilities, and chemicals; owned solution architecture from discovery and process mapping through **UAT/validation**, go-live, training, and hypercare.
- Served as a **domain-embedded technical advisor** for regulated manufacturing stakeholders; translated processes, compliance needs, pain points, and success metrics into scalable workflow architectures, phased roadmaps, and adoption plans.
- Led the **AbbVie Chicago pilot plant Shiftconnector deployment** for **50+** manufacturing users; architected shift handover, production logs, logbooks, CSV workflows, custom views, and email/communication features to improve operational visibility.
- Designed **integration and data-flow patterns** connecting Shiftconnector, Augmentir, and GoCanvas with SAP/ERP, CMMS, historians, alarms/events, and equipment logs using **REST/JSON APIs**, structured mapping, and system acceptance testing.
- Built **LLM-powered SME assistant workflows** in Augmentir for frontline users; structured knowledge sources, engineered prompt templates, defined **response guardrails**, and iterated with feedback to improve self-service guidance.
- Built **Python** and **PowerShell** automation for repeatable deployments and operations, including bulk configuration, data transformation/validation, structured logging, error handling, and data movement workflows.

NVIDIA Corporation

Enterprise XR Technical Product Management Intern

Santa Clara, CA

May 2021 – August 2021

- Developed enterprise XR demos in **Unity** using **CloudXR** and **AWS EC2**, supporting internal testing, customer discovery, and product discussions with medical education stakeholders.
- Supported a **Swiss VR medical training** startup with CloudXR setup and integration, translating partner needs into technical enablement and helping initiate an early product partnership.
- Contributed technical product content for **NVIDIA's** CloudXR ecosystem, synthesizing partner conversations into messaging around platform value and enterprise adoption.

Dolby Laboratories

Enterprise Applications Project Management Intern

San Francisco, CA

January 2020 – August 2020

- Supported enterprise application rollout across Finance, Marketing, and Legal; gathered requirements, standardized workflows, and improved cross-functional delivery visibility.
- Introduced **Agile** workflows for internal IT delivery, reducing project cycle times by **30%** and improving roadmap visibility, stakeholder alignment, and release coordination.
- Supported **roadmap planning** and cross-functional requirement gathering for enterprise IT applications from concept through post-launch evaluation.

Education

Iowa State University | College of Engineering

Ames, IA

Bachelor of Science in Computer Engineering with a Minor in Data Science

Capstone: Led product design and frontend development for a recipe app, driving 70% user retention through UX iteration and agile delivery.

Skills

- Application Architecture:** solution architecture, integration patterns, SaaS/on-prem/hybrid design, technical tradeoff analysis, architecture documentation, deployment roadmaps, technical debt awareness
- AI & Automation:** LLM assistant workflows, GenAI use-case assessment, prompt engineering, knowledge structuring, response guardrails, AI-enabled support workflows, Python/PowerShell automation
- Enterprise Integration & Data:** REST APIs, JSON, Postman, SAP/ERP, CMMS, historians, equipment logs, SQL Server, T-SQL reporting/exports, data validation, operational data flows
- Regulated Delivery:** pharma/manufacturing workflows, compliance-aware requirements, UAT/validation support, audit-facing workflows, SOP/logbook digitization, training and hypercare
- Cloud / Infrastructure / Engineering:** AWS EC2, Windows VMs, SaaS/on-prem/hybrid deployments, SSO/Active Directory, Git, CI/CD, Jira, Confluence, incident triage, log analysis
- Languages & Platforms:** JavaScript, Python, PowerShell, SQL, Java, C#, Shiftconnector, Augmentir, GoCanvas, AspenTech Inmotion

Certifications & Activities

- | | |
|---|------|
| • AI for Product Management certification, Mind the Product | 2025 |
| • High Impact Presentation certification, Dale Carnegie Training | 2024 |
| • Trackside hospitality volunteer, Circuit of the Americas Formula 1 Grand Prix | 2022 |
